YEARS AT STEAMOJI

FINAL PROJECT

HABIT TRACKER

Designed, 3D printed, wired, and coded at
Steamoji Kirkland.

01

Designed in CAD

Modeled the robot body, desk, and copybara topper before it ever hit the printer.

02

3D printed the shell

Orange body, yellow stand, LCD face, and a custom copybara perched on top.

03

Wired the electronics

Arduino, breadboard, and display packed into a hinged maker box he built himself.
